

General Assembly

Distr.
GENERAL

A/RES/47/44
15 December 1992

Forty-seventh session
Agenda items 51 and 63 (i)

RESOLUTION ADOPTED BY THE GENERAL ASSEMBLY

[on the report of the First Committee (A/47/681)]

47/44. The role of science and technology in the context of
international security, disarmament and other related
fields

The General Assembly,

Recalling its resolutions 45/61 of 4 December 1990 and 46/38 D of 6
December 1991,

Taking note of the report of the Disarmament Commission on its 1992
substantive session, 1/ in particular on the work of Working Group IV on
agenda item 7, entitled "The role of science and technology in the context of
international security, disarmament and other related fields", 2/

1/ Official Records of the General Assembly, Forty-seventh Session,
Supplement No. 42 (A/47/42).

2/ Ibid., para. 31.

/...

Taking note also of the report of the Conference on Disarmament on its 1992 substantive session, 3/ in particular on the work on the agenda item entitled "Transparency in armaments", 4/ which includes, in response to resolution 46/36 L of 9 December 1991, inter alia, the subject of the elaboration of practical means to increase openness and transparency related to the transfer of high technology with military applications,

Recognizing that progress in the application of science and technology contributes substantially to the implementation of arms control and disarmament agreements, inter alia, in the fields of weapons disposal, military conversion and verification,

Recognizing also that norms or guidelines for the transfer of high technology with military applications should take into account legitimate requirements for the maintenance of international peace and security, while ensuring that they do not deny access to high-technology products, services and know-how for peaceful purposes,

Noting the interest of the international community in cooperation in the fields of disarmament-related science and technology and the transfer of high technology with military applications,

1. Calls upon the Disarmament Commission to intensify its work on agenda item 7 and to submit as soon as possible specific recommendations on this matter to the General Assembly;
2. Requests the Conference on Disarmament to pursue constructively in response to resolution 46/36 L its work on the agenda item entitled "Transparency in armaments", which includes consideration of the elaboration of practical means to increase openness and transparency related to the transfer of high technology with military applications;
3. Invites Member States to undertake additional efforts to apply science and technology for disarmament-related purposes and to make disarmament-related technologies available to interested States;
4. Also invites Member States to widen multilateral dialogue, bearing in mind the proposal for seeking universally acceptable international norms or guidelines that would regulate international transfers of high technology with military applications;
5. Decides to include in the provisional agenda of its forty-eighth session an item entitled "The role of science and technology in the context of international security, disarmament and other related fields".

81st plenary meeting
9 December 1992
